

DM65

Large Manual Flush/Tilt Combo Mount

DM65 offers a different approach to mounting solutions with its clean, modern, and minimalist cross-bar design that is simple to install and use. A locking handle can be attached on the right or left side depending on the user preference; and once it is locked, the TV cannot be detached even when the TV is tilted up for extra safety and security. Even after it is mounted, the TV can be easily moved laterally to center the TV within the room. DM65 offers two mounting solutions in one application: a TV can be mounted either flush 1" from the wall or at a 9° tilt to achieve the perfect viewing angle while reducing glare and reflections. Compact and low profile design, makes the mount virtually invisible, complementing today's slim TVs.

Specifications:

- Fits Most: 42" - 65" Flat panel TVs
