

FM55

Manual Flush / Tilt Combo Mount

Our FM55 flush/tilt combo mount offers two mounting solutions in one application: a TV can be mounted either flush 1" from the wall or at a 6° tilt to achieve the perfect viewing angle while reducing glare and reflections. The quick latch feature secures the TV to the mount, yet allows easy cable and wire management, making installation a breeze. Compact and low profile design, makes the mount virtually invisible, complementing today's slim TVs.
