

## SA52

### Large Motorized Swing Mount

Our medium motorized swing mount is a unique mounting technology alternative to today's manual articulating mount. SA52 can fine-tune the viewing angle of a TV at the touch of a button, from the comfort of your favorite chair, by varying the swivel angle up to 90°. This allows the TV to be viewed from different viewing locations such as the kitchen, or an adjacent game room. At a 1.7" profile, the SA52 is perfect for today's slim LCD and LED TVs. With the optional ControlWand (Wi-Fi adapter), a hand held device (iPhone, iPod) can be used to control the mount via auto, manual, and gyro modes. In the gyro mode, the motion of the mount is synchronized with the motion of the hand held device without having to push a button.

#### Specifications:

- Fits Most: 37" - 52" Flat panel TVs
- Weight Capacity: Up to 80 lbs
- Swivel Angle: 90° left or right
- Profile: 1.7"
- RS-232 Port for automation control.
- USB port for ControlWand (Wi-Fi adapter sold separately) to use hand held devices like iPhone or iPod to control the mount.
- Power Supply: 100V – 240V auto ranging
